PROFESSIONAL SUMMARY

Results-driven **Data Engineer** with hands-on expertise in designing and deploying scalable **ETL/ELT pipelines** using **Azure Data Factory**, managing structured data in **Azure SQL Database**, and building **Power BI dashboards** for actionable business intelligence. Proficient in **Python, PySpark, SQL**, and the full **Azure cloud ecosystem** (ADLS Gen2, Azure Functions, ADF). Deep learning research experience with published work. Passionate about building **cloud-native, data-driven solutions** that deliver measurable business impact at scale.

TECHNICAL SKILLS

Cloud & Data Engineering: Azure Data Factory (ADF), ADLS Gen2, Azure SQL Database, Azure Functions, PySpark, ETL/ELT Pipeline Design, Parameterized Pipelines

Programming & Query Languages: Python (Pandas, NumPy, Matplotlib), SQL (Joins, CTEs, Window Functions, Subqueries, Aggregations, Indexing), MySQL, PySpark

BI & Visualization: Power BI (DAX, Power Query, Slicers, KPI Dashboards, Drill-through), Tableau, Excel (Pivot Tables, VLOOKUP, XLOOKUP, Conditional Formatting)

Data Concepts: Star/Snowflake Schema, Relational Database Design (3NF), EDA, Data Cleaning & Validation, KPI Tracking, Data Warehousing, Dimensional Modelling

PROJECTS

Flash Sale Analytics Pipeline | *Azure Data Factory, Azure SQL DB, ADLS Gen2, Power BI*

2024 – 2025

- Architected an **end-to-end cloud ETL pipeline** on Azure, ingesting raw sales data from **ADLS Gen2**, transforming via **ADF Data Flows**, and loading into **Azure SQL Database** for analytics-ready consumption.
- Built interactive **Power BI dashboards** with **DAX measures** tracking real-time KPIs – revenue, conversion rates, and product performance – **reducing report generation time by 60%**.
- Implemented **parameterized pipelines** and trigger-based scheduling in ADF for fully **automated incremental data loads**, eliminating manual intervention.

Sales Performance Analysis Dashboard | *Power BI, DAX, Excel*

2024

- Analyzed **multi-year sales data** to surface revenue trends, top-performing products, and regional growth using **Power BI** with slicers, drill-throughs, and dynamic KPIs.
- Engineered **DAX measures** for total sales, profit margin (%), **YoY growth**, and customer segmentation across multiple business dimensions.

MedCaptionNet – Automated Medical Image Captioning | *Python, ResNet-50, LSTM, Deep Learning*

2023 – 2024

- Developed a deep learning model using **ResNet-50 + Dense Attention Mechanism + LSTM** for automated medical image captioning; research **accepted for publication**.
- Designed **image feature extraction pipeline** and language generation module; improved caption accuracy via **attention-weighted encoding**.

EDUCATION

Hindusthan Institute of Technology

Bachelor of Engineering – Computer Science & Engineering — CGPA: 8.14 / 10

Coimbatore, Tamil Nadu

Nov 2021 – Apr 2025

Raj Vidyalaya Matric Hr. Sec. School

Higher Secondary Certificate (HSC) – Computer Science — Score: 88%

Mayiladuthurai, Tamil Nadu

Jun 2020 – May 2021

CERTIFICATIONS

- Certified Data Engineer** – DataCamp
- SQL (Advanced) Skill Certification** – HackerRank
- SQL Analytics & BI on Databricks** – Simplilearn
- SQL for Developers & BI (MySQL)** – Udemy
- Business Analytics with Excel** – Simplilearn
- Power BI Workshop** – OfficeMaster

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the authenticity of the details mentioned in this resume.
